

IPS Sonora™

DESCRIPTION:

Sonora's exterior skin has a flat exterior profile with an Aztec-embossed pattern resembling old-world hand plaster. The interior skin employs a Mesa profile.

FEATURES:

- The Sonora Panel utilizes concealed clips and eliminates thermal short circuits.
- The standard exterior surface is Galvalume® coated steel with silicone polyester or Kynar 500/Hylar 5000 coatings.
- IMPs allow for fast assembly times and easy installation, resulting in reduced construction labor costs and earlier business starts.
